2 1.5 1 0.5 0 15 m

The chart displays a single data series representing the number of new Instagram followers over a 15-month period. The vertical axis (y-axis) is labeled from 0 to 2 in increments of 0.5. The horizontal axis (x-axis) is labeled from 0 to 15 months. A blue line starts at the point (0, 2) and ends at the point (15, 1). A red arrow points downwards from the value 3, which is positioned above the 2 on the y-axis, to the text '57,1%', indicating the percentage decrease from the initial value of 2 to the final value of 1.

Time	New Followers
0 months	2
15 months	1
